Nivodek is a Wood Plastic Composite (WPC) hollow decking, made from 100% recycled products which looks and feels like natural wood whilst giving you a virtually maintenance free product that will last for years.

Nivodek is easy to fit using plastic clips and screws and can be laid with either deep wood grain effect or narrow grooves.

-  **Size: 140mm x 23mm x 2900mm (0.406m² per board)**
-  **Double sided product - side 1. wood grain effect and side 2. grooved**
-  **Weight: 2.70kgs per metre**
-  **Low maintenance: Unlike natural wood, Nivodek does not need to be regularly sealed, stained or painted**
-  **Easy to fit to suitable joists sub-structure using stainless steel screws & plastic clips**
-  **Environmentally friendly: Made from 100% recycled products**
No formaldehyde, benzene & other harmful products
-  **60% recycled wood powder, 30% PE plastics and 10% additive**
-  **UV & fade resistance**
-  **Waterproof, anti mildew, anti decay & anti ageing**
-  **Temperature resistance: suitable from -40oC to +60oC**
